Fairtrade Map

The link: https://www.fairtrade.net/uk-en/get-involved/resources/resource-library/schools-resources/fairtrade-map.html

SHORT DESCRIPTION

This educational resource helps exploring where Fairtrade products come from using a visual, map-based approach.
It supports trainers in raising awareness about fair trade by making global supply chains easier to understand and encouraging reflection on fair wages, ethical sourcing, and responsible consumption.

Escape Rooms for Green Entrepreneurship

Co-funded by the European Union

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

SUGGESTIONS

While exploring the maps, learners could better understand how global trade systems connect producers, consumers, and environments.

This helps them identify where everyday products come from and what conditions are involved in their production. It can also support a deeper reflection on fairness in global trade and encourage learners to question the impact of their consumption choices.

This approach also guides them toward more responsible actions that take into account both social justice and environmental sustainability.

KEY WORDS

- Sustainability
- Environmental challenges
- Social Impact

LANGUAGES

English.

PRICING

These visuals are available freely.
