SHORT DESCRIPTION

Games4Sustainability is an online platform that helps educators, trainers and sustainability professionals use serious games and social simulations to teach sustainability. The website includes a blog with practical stories and a Gamepedia where users can browse 100+ games and simulations connected to the Sustainable Development Goals.

Escape Rooms for Green Entrepreneurship

Co-funded by the European Union

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

SUGGESTIONS

- Use the Gamepedia to find a sustainability game suitable for your lesson or workshop.
- Filter games by Sustainable Development Goal, target group, duration or game type.
- Choose short games for classroom introductions and longer simulations for workshops.
- Use the blog to find examples of how other educators and organisations use serious games.
- After playing, guide a discussion about choices, consequences and real-world sustainability challenges.
- Connect each game to SDG topics such as climate action, clean water, cities, education or responsible consumption

KEY WORDS

- Sustainability education
- Social simulations
- Sustainable Development Goals
- Game-based learning
- Climate action

LANGUAGES

English.

PRICING

The Games4Sustainability website and Gamepedia can be browsed online for free. However, the pricing or access conditions may vary for each individual game, because the platform links to games created by different organisations
