## SHORT DESCRIPTION

A comprehensive module for teachers and trainers focusing on integrating green and entrepreneurial skills into education.

## SUGGESTIONS

Use the learning module as a curriculum guide for embedding sustainability in workshops. Break modules into mini-units for each phase. Use exercises like stakeholder mapping and eco-system analysis as group activities. Include reflection questions to deepen learning. Assign role-specific content (e.g., finance, innovation) to support targeted skills. Use case studies to inspire student solutions and discussions.

## KEY WORDS

- Green economy
- Business strategies
- Sustainability
- Education

## LANGUAGES

English.

## PRICING

The resource is available freely.
