

"100 Essential Resources for Teaching Sustainability Now and in 2025"

The link: <https://www.winssolutions.org/100-essential-resources-for-teaching-sustainability-now-and-in-2025/>

SHORT DESCRIPTION

A curated list of resources aimed at enhancing sustainability education across various disciplines.

SUGGESTIONS

The WINS resource collection offers diverse tools to enrich every phase of a sustainability workshop. Use project-based resources to inspire student action. Integrate interactive games during sorting challenges. Show short documentaries to spark problem discussions. Use data tools for research phases. Assign case studies to support circular design. Provide facilitators with curriculum guides for alignment. Direct students to youth leadership sites for pitch inspiration and real-world relevance.

KEY WORDS

- Education
- Environmental challenges
- Sustainability
- Green Economy
